

**BID SPECIFICATIONS
VECTOR SUPPLIES**

Item #1: Larvacide Briquets

- Bacillus Thuringiensis Isrealensis (BTI)

Item #2: 30/30 Permethrin

- Adulticide liquid concentrate in 5-gallon buckets
- Quick knockdown, effective control of mosquitoes and target species.
- Low odor, non-corrosive formulation.
- Product degrades rapidly resulting in no residual effects
- Effective in controlling a wide range of mosquito species.
- No water setback.

Item #3: UC 20-20 Permethrin

- Adulticide liquid concentrate in 5-gallon buckets
- Quick knockdown, effective control of target insects.
- Low odor, non-corrosive formulation.
- Product degrades rapidly resulting in no residual effects
- Effective in controlling a wide range of mosquito species.

Item #4: ULV Oil

- Used to dilute concentrated pesticide products, such as most mosquito control adulticide products to achieve the desired dilution rate customized for any aerial or ground application. It is commonly used for ground and aerial ULV applications of Permethrin, Resmethrin, Natural Pyrethrum, Etofenprox, and other concentrated mosquito adulticides.
- A light grade petroleum oil that is clear to opaque in appearance which may be used as a diluent for most mosquito control adulticides.
- Low odor product that has a very discrete profile.
- 50-gallon drum

All items must be delivered within 10 days of order.
