Questions:

Q1 - Will 1200-pound Chlorine and 2000-pound Chlorine be ordered at the same time?

A1 – No. Orders are placed independently by each facility based on their specific consumption rates. The South Plant orders 1,200-pound cylinders two to three times per month, while the Talladega plant orders 2,000-pound cylinders four to five times per month.

Q2 - Will orders be placed so deliveries can be made to both Wilsonville and Childersburg locations on the same trip?

A2 – No. Each plant manages its inventory independently. Deliveries are not coordinated for combined trips.
