

January 8, 2021

STATE OF ALABAMA
COUNTY OF SHELBY

INVITATION – BALLISTIC VESTS

Sealed bids for **BALLISTIC VESTS** will be received in the office of the County Manager, Administration Building- Shelby County, 200 West College St, Room 123, Columbiana, Alabama 35051 until **2:30 P.M, January 21, 2021** at which time bids will be publicly opened and read. The Shelby County Commission reserves the right to reject any or all bids and to waive informalities in awarding this bid to the lowest bidder. Bidders are to state that bids submitted are firm and that no claims for errors will be made after bids are opened and subsequent thereof. If you have any questions concerning this bid, please contact Jay Fondren at Jfondren@shelbyso.com.

GENERAL INFORMATION

All bidders must use our form for submitting their bids. All bids must be sealed and marked in the lower left corner "**BID – BALLISTIC VESTS**" with opening date and time. Late bids will not be opened.

Records showing successful bidder(s) and prices quoted will be placed on file and may be examined upon request. If contract is awarded to someone other than lowest bidder, a note of explanation will appear in the file and Commission Minutes.

Should there be a change in ownership or management the contract shall be canceled unless a mutual agreement is reached with the new owner or manager to continue the contract with its present provisions and prices. The contract is not transferable by either party.

The County may cancel this contract at any time for any reason, provided a thirty day written notice is given.

DISQUALIFICATION OF BIDS

Bids may be disqualified before awarding of the contract for any of the following:

- A. Failure to mark envelope as required;
- B. Failure to sign or notarize the bid document; or
- C. Failure to include requested information or other details of the bid.

IMMIGRATION LAW

By signing this contract, the contracting parties affirm, for the duration of the agreement, that they will not violate federal immigration law or knowingly employ, hire for employment, or continue to employ an unauthorized alien within the State of Alabama. Furthermore, a contracting party found to be in violation of this provision shall be deemed in breach of the agreement and shall be responsible for all damages resulting therefrom.

OPEN TRADE

By signing this contract, vendor agrees that it is not currently engaged in, nor will it engage in, any boycott of a person or entity based in or doing business with a jurisdiction with which the State of Alabama can enjoy open trade.

METHOD OF AWARD

The award will be made to the lowest responsive bidder meeting specifications. It is not the policy of The Shelby County Commission to purchase on the basis of low bid only. Quality, conformity with specifications, purpose for which required, terms of delivery, and past service and experience are among the factors that may be considered in determining the responsive bidder.

The Shelby County Commission reserves the right to award separate contracts for each item, each product, or any combination of products if in the best interest of the Shelby County Commission.

Shelby County requires a purchase order for all purchases/services. Copies of purchase orders shall be required by vendor for orders to be processed and invoices paid.

Please provide your bid response in triplicate, one original and two copies.

1.0 SCOPE: The attached product specification details the style and quality of concealable soft body armor vests intended for use by male or female members of this agency. The vests shall be worn comfortably while being concealed under a shirt. All vests shall provide protection against labeled projectile penetration while reducing resultant blunt trauma and vest distortion to acceptable levels. The successful vendor shall be required to supply the individual vests with applicable options and colors as ordered for male or female personnel.

The concealable body armor shall be the Safariland SX Series that meets or exceeds the Federal Bureau of Investigations Body Armor Test Protocol and complies with National Institute of Justice (NIJ) Standard 0101.06 Ballistic Resistance of Personal Body Armor for Type IIIA

Shelby County Sheriff's Office
Bid Specifications for Bullet Resistant Vests- 01/08/2021

classification. Bids based on body armor models made by manufacturers other than Safariland must be clearly identified as such; those bidders must include: a male and female sample, full product descriptions, drawings and/or photos, technical specifications, as well as a list of at least (10) law enforcement agencies currently using that model armor for reference with their bid. **Bidders failing to submit this supporting documentation will be rejected from the bid.**

Where the apparent low bidder has proposed an alternate product, that bidder shall demonstrate product equivalency to the satisfaction of the Sheriff's Office. Evidence of equivalency shall be presented for each requirement of this specification, and the burden of such equivalency is entirely on the vendor. Any bidder may be required, at any time during the procurement process, to provide documentation proving compliance with any or all the terms of this specification.

Only body armor models which have been tested by the National Institute of Justice (NIJ) National Law Enforcement Technology Center (NLETC) utilizing the methodology found in the Federal Bureau of Investigations Body Armor Test Protocol and complies with National Institute of Justice (NIJ) Standard 0101.06 Ballistic Resistance of Personal Body Armor for Type IIIA classification, **no exceptions. Models certified under earlier standards and grandfathered into compliance will be rejected.**

Bidders offering a product other than Safariland with multiple models as alternatives **will be rejected.** Those bidders offering products other than Safariland must provide test results of any and all rounds that exceed National Institute of Justice (NIJ) Standard 0101.06 Ballistic Resistance of Personal Body Armor. This NIJ abbreviated testing is commonly known as "Special Threat" testing; testing of such rounds must be conducted by an NIJ approved laboratory. Failure to provide such documentation at time of bid **will be cause for rejection.**

2.0 GENERAL MINIMUM REQUIREMENTS:

The requirements in this specification describe **minimum** acceptable standards for concealable body armor for the Sheriff's Office. The intent is to purchase state-of-the-art concealable body armor with optimum protection with a high degree of wearability. All bidders shall adhere strictly to the requirements stated herein. Compliance, warranties, and/or deviations from this specification are to be noted; a complete justification for any and all deviations is to be furnished in a separate document "**Deviations from Specifications**" and submitted with the bid package. Only products of manufacturers that meet or exceed these specifications will be considered. **Bids from manufacturers other than the specified model must demonstrate product equivalency by submitting full product descriptions, technical specifications, test reports, a complete bid sample - male and female - as well as other requested information set forth in the following specifications. The Sheriff's Office reserves the right to reject any and all bids, to waive any informality in bids and to accept any item in the bid.**

2.1 QUALITY REQUIREMENTS: All materials are to be clean, brand new and free of any defects. All workmanship is to be of first quality. No defect that may affect the performance, wearability, or durability of the vest will be tolerated. The Sheriff's Office shall have the sole right to determine if this and all other requirements have been met.

Shelby County Sheriff's Office
Bid Specifications for Bullet Resistant Vests- 01/08/2021

2.2 ORIGIN OF MANUFACTURE: Only vests assembled entirely by United States citizens or persons who have legally immigrated and/or applied for United States citizenship will be considered for purchase.

3.0 DESIGN REQUIREMENTS:

The concealable soft body armor described herein is intended for primary use as an undergarment-worn concealably under a uniform or other type of shirt. The ballistic vest shall consist of two primary components- the BALLISTIC PANELS which consist of the ballistic panels enclosed by a protective BALLISTIC PANEL COVER and the BALLISTIC VEST CARRIER or "outer-shell".

3.1 GENERAL DESIGN and USER COVERAGE:

The soft body armor must provide maximum practical protective coverage for male and female officers for everyday wear. However, it must not bind or restrict user mobility or wearability. The intent is to provide full wrap or overlap protection of the torso - coverage is to be the maximum available consistent with wearability needs. This is defined as a vest with "full wrap" side panels that "butt fit" at the sides, with no more than 1" gap or overlap design in which the side panel overlaps for the highest degree of coverage. Suitable relief 1-2" should be allowed between the bottom edge of the vest and the duty belt while standing so that no binding occurs when the officer is in a sitting position. Ample relief must be provided in the armpit region for maximum mobility and a 2"-3" scoop neck must be provided to maintain concealability and prevent the armor from showing when worn under a shirt with an open collar.

4.0 BALLISTIC PANELS:

This bid is for Safariland ballistic vest model SX Series SX02 and SX02F. The bid specifications for ballistic panels are listed in appendix 1.

5.0 BALLISTIC VEST CARRIER:

Bids for two ballistic vest carriers must be included by the successful bidder. The carriers are described as Safariland models M1, and V1 Side pocket/Front pocket. The bid specifications for these carriers are listed in appendix 2, appendix 3 and appendix 4.

6.0 QUALITY CONTROL AND PRODUCT CONSISTENCY:

QUALITY CONTROL PROGRAM AND POLICY: Any manufacturer bid must have a comprehensive Quality Control Program, which includes a written Q.C. Policy and the minimum quality assurance steps shown in 6.2-6.6, below. The manufacturer must also be Quality Certified by an accredited Quality registrar to the ISO 9001 standard. All documents and data must be made available for inspection upon request. **A copy of both the quality control policy and the ISO 9001 certificate of registration must accompany this bid.**

6.1 PRODUCT CONSISTENCY: The manufacturer must warrant that all shipments of each certified model will be identical in design and constructions to that which was originally certified. The manufacturer and NIJ must have retained samples from the original certification for verification and/or inspection. **No substitutions will be allowed without the prior written approval of the Sheriff's Office.**

Shelby County Sheriff's Office
Bid Specifications for Bullet Resistant Vests- 01/08/2021

6.2 SERIALIZATION: All vest must be serialized, 100% inspected, and traceable. All procedures and quality data must be available to the Sheriff's Office for inspection upon request.

6.3 FIBER AND FABRIC PROPERTIES: Each lot's critical fiber properties (denier, # of filaments, fiber type, tenacity, and elongation at break) must have been certified by the fiber manufacturer. Each lot's critical fabric properties (weave, warp & fill ends/inch, basis weight, thickness, yarn and fabric tensile properties, 9mm and .357 Mag. V-50 ballistic limits) must have been certified by the fabric manufacturer.

6.4 MANUFACTURER PROPERTY CHECKS: The vest manufacturer must also recheck critical fabric properties (fiber/fabric property certifications, weave type, warp and fill ends/inch, basis weight, and 9mm/.357 Mag. penetration resistances) of each shipment received prior to its use in manufacturing ballistic vests.

6.5 CONTINUED PERFORMANCE: The manufacturer must warrant that the NIJ certified model will continue to perform at its established V-50 Ballistic Limit levels, as demonstrated by independent laboratory tests, within a normal variation of +/-3%, throughout the five year service life of the vest.

6.6 PLANT INSPECTIONS: The manufacturer must allow unannounced plant and data inspections if the Sheriff's Office wishes to conduct them, at any time during or after the production of the Sheriff's Office's vests. (Note: All Sheriff's Office plant visits and/or ballistic tests will be paid for by the Agency.)

7.0 PRODUCT WARRANTY and CUSTOM FIT:

VEST PERFORMANCE WARRANTY: Assuming normal use and lack of abuse, each vest must be warranted to provide protection as stated on the protective panel label and to be free of defects in material and workmanship for a period of **five (5) years** from the date of purchase. Outer carriers must be guaranteed against defects in workmanship for twelve **(12) months** from date of purchase.

7.1 CUSTOM FIT: Each vest must be custom fit and made to measurements. All measurements must be performed by factory trained personnel. If a manufacturer is bidding directly, a detailed service plan for agency fitting and provisions for local customer service must be provided with this bid.

7.2 FIT GUARANTEE: The fit of custom-measured vests must be guaranteed. Bidder and/or manufacturer must agree to provide alterations or replacement free, until the wearer is satisfied. Note: Officer must request alterations within 2 weeks of issue and not mark on vest or carrier prior to satisfaction of fit. After 2 weeks an alteration fee applies.

7.3 PACKAGING: Each vest must be packaged individually in a protective plastic bag and shipped in a specially designed protective cardboard box.

Shelby County Sheriff's Office
Bid Specifications for Bullet Resistant Vests- 01/08/2021

7.4 Delivery: Each ballistic vest ordered should be delivered to the Sheriff's Office by the manufacturer within eight weeks of date of order and no later than 12 weeks from the date of order.

8.0 INSURANCE REQUIREMENT:

8.1 PRODUCT LIABILITY: Qualified bidders shall agree to provide a minimum of \$10,000,000 (USD) in product liability insurance coverage on delivered vests. *A copy of the manufacturer's liability insurance showing proof of \$10,000,000 (USD) liability insurance must accompany this bid.*

9.0 PROOF OF STABILITY:

Qualified bidders must have an established store with regular business hours. Only manufacturers that have been in business at least three years are eligible.

10.0 REFERENCES:

Upon request, qualified bidders must furnish a list of other agencies that their brand has been supplied to over the past three years.

(Note: Manufacturers may submit this list directly to the Agency. All lists will be held confidential and returned at the end of the bidding process.)

11.0 PROTEST:

Any protest based on the selection and performance criteria of this specification will be disregarded. The agency retains the right to reject any bids based upon non-conformance of the aforementioned detailed specifications.

OPTIONAL DESIGN REQUIREMENTS:

Below are items that must be offered as options to be utilized in conjunction with the concealable body armor:

Ballistic Plates: The following optional, removable Special Threat Plates must be offered as optional items:

Optional **Hard armor plate-** Protech's Impac-HT. The specifications are listed in appendix 5.

Trauma Pacs: The following TRAUMA only insert must be offered as optional items:

Optional soft trauma insert- Safariland SBA-MAP. The specifications are listed in appendix 6.
